

# DURMA

## Variable Rake Guillotine

### DURMA VS Series

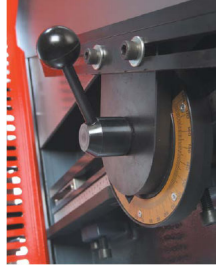

Heavy duty machines where the operator simply enters in the material thickness, material type and back gauge dimension and the CNC control automatically calculates the optimum setting of blade rake angle and blade clearance. This dramatically reduces the change of operator error and setup time

Standard  
CNC Controller

Optional  
Protractor

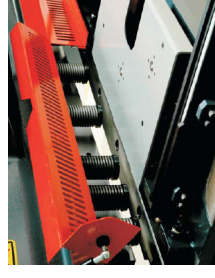

Standard  
Ballscrew  
Backgauge

Optional  
Long Throat

Standard  
Ball Transfer Tables  
Finger Guard

Optional  
Thin sheet Support

- 6 to 20 mm mild steel
  - 3 to 10 metres
- Contact us for a Quotation
